

Blue Star Mothers of America was chartered by Congress in 1942, during World War II, as an organization for mothers of active military.

Today, our work is the same as it was then, to support the troops in the field with comfort items, to be of help to the families of the deployed, to assist the returning wounded, and to comfort the grieving. We also find comfort in helping each other and sharing the unique life of the military family.

We also strive to raise positive public awareness of the military and patriotic values.

While we are an organization for mothers, we encourage fathers, wives, children, and all family members to participate as associate members.

We are a 501c(3) non-profit organization and contributions to Blue Star Mothers are tax deductible.
